## CHILD'S VOICE

Let me hear you sing to your heart

## VERSE ONE

Don't matter where you're going, just matters that you do  
Get out on the open road, say I'm coming through

If you don't know which direction, just choose and follow through  
Life will give you lessons in discovering you

## CHORUS

You can bloom wild child, you can bloom wild

## VERSE TWO

Labels won't define you, though you'll try them on  
One day you'll begin to sing your own song  
You decide your future and how you're gonna be  
Check the compass deep inside, pray for eyes to see

## CHORUS

You can bloom wild child, you can bloom wild  
You can bloom wild child

## BRIDGE

You're not a weed, you're a wildflower  
with the power to begin  
So scatter your seeds, let a wild fire  
burn em up to catch the wind

## CHORUS

You can bloom wild child, you can bloom wild  
You can bloom wild child, you can bloom wild

## CHILD'S VOICE

Make it grow, to make it bloom  
Beautiful in bloom
